CD126, p.40. Oswald's literature distribution. Lawrence Bright, Roberto Martinez Martinez, Rafael (LNU).

What is lacking as well as what is said makes this an interesting report. Although on this same day and the one before Steinmeyer had seen Bright, the source of Martinez' name, he makes no reference to him in quoting Martinez in refutation of Bright's identification. It would seem that in a serious investigation he would have gone back to Bright and asked him of Martinez' denial he had been one of the two men indignant over Oswald.

Any identification of Martinez is lacking.
